Keep the email muskegopoint@gmail.com for now, but I will finish setting up our Google workspace and then it will be info@muskegopoint.com

Yes, we own the domain muskegopoint.com (currently Weebly is the website host)

I've attached the current logo which we would like to stick with...I don't have a digitized version.

Tons of history stuff:

It was rumored Isaac Goodwill traded an old grey mare for Muskego Point.

I'll email with more information tomorrow.

logo

[Forwarded to Saylor. Attachment: Muskego-Point-logo.jpeg.png — the current black-and-white logo Kelly references above. The owners want to keep this logo; no digitized/color version exists.]
